Sir:

Applicant responds as follows to Office Action mailed July 05, 2005.

I. SUMMARY OF EXAMINER'S OFFICE ACTION:

Examiner first noted that Claims 1-12 were pending in the application and then that these claims were subject to restriction. Claims 1-8 describe an inventive formwork support system while Claims 9-12 describe an inventive bracket.

II. APPLICANT'S RESPONSE:

Applicant has reviewed the sections of the CFR and MPEP cited by Examiner. Based on Applicant's reading of these sections, restriction is not required. There is no "AB" combination. There are broad and specific subcombinations of "B." Therefore, there is only one invention.
